AirGoal Safe·Portable·Inflatable Sports Equipments

Company Profile

- 2005/ As a fanatical soccer fans, our founder first had an idea to invent a kind of inflatable goal which could be professional as well as safe for training.
- 2006-2007/ R&D of the inflatable professional training goal started and developed step by step.
- 2008/ Late in this year, AirGoal 's development is finished and AirGoal Sports Equipment Co., Ltd was founded.
- 2009-2010/ AirGoal started to enter international market by agents in different countries, at the same time more and more product lines such as Air Hockey Goal, Air Rugby Goal started to develop and market.
- 2011/ AirGoal started to market in domestic China, and became one of the seven **COOPERATIVE PARTNER OF CFA (Chinese Football Association)**.
- 2012/ **AirGoal Leisure version** first exhibit in market and receive great response as European Cup's promotion gift
- 2013/ AirGoal became designated product for China National Youth & Soccer Development Program, being used in many famous leagues, schools and sports events, including Beckham's China Tour, President Xi Jinping's Sports Tour in Beijing, Kobe's China Tour, National Male Youth Soccer leagues, etc. At the same time, a lot of revolutionary new Air Sports equipments is launching in this year.

Our Mission

Create unprecedented safe and portable sports environment for human being.

Our Value

Focus on Quality

Creativity

Initiative & Ownership

Creativity: We believe creativity is not one shoot, it is continual, and it would eventually lead to a perfect sports environment for human being.

Focus on Quality: We believe high quality product is always more important than good marketing, so we evaluate our performance on quality by highest standard.

Initiative & Ownership: We value every AirGoaler's initiative and growth; we share the success of AirGoal within our group.

Competitive Advantages of AirGoal

Unique selling points of AirGoal

SAFE

Inflatable AIRGOAL would curve when collided with players violently to prevent any hurt. Perfect for training!

PROFESSIONAL

AIRGOAL is rigid and straight when pump up. It would react like real steel goal when hit by football.

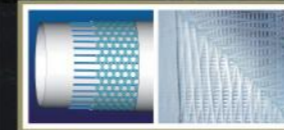

PORTABLE

AIRGOAL is sold with carry bag. Deflating AIRGOAL and pack it up, you could take it anywhere!

Technical advantages of AirGoal

Hoses

1. Made of thermoplastic polymer and high tenacity terylene yarn in a three layer structure.
2. Stand pressure of 4.6 BAR.

Fiberglass supporting stick

1. Cushion pressure on goal
2. Decrease weight and size of goal, easier to pack up and carry.

Inflate & Deflate two-way pump

1. Lower hole of pump, for inflating. Upper hole of pump, for deflating.
2. Three-size pump, fitting different size goals

Joint connector(PC/ABS)

1. Every joint connector of AirGoal is made of PC/ABS synthetic material
2. Temperature resistance, Weather resistance, suitable temperature from -10°C to 50°C

Auto-lock valve

1. Turn the valve fully anti-clockwise to lock, air could just get in.
2. Turn the valve fully clockwise and push, air could release fast automatically.

Professional netting

1. Passed net strength test. Could stand tensile strength of 38.5kgs
2. Diameter:2.5mm, grid size:100mmX100mm, meeting international standard.

Material: Oxford fabric & mesh
Specification: 40*40*80cm
Model: AT-QW-4080

▲ Sports bandage

Material: 100% thick cotton & medical use glue
Specification: 5*450cm
Color: Multi color available

▲ Leg guard

Material: Polypropylene, EVA foamed plastic, polyester fibre
Size: Children, U12, U15, adult
Model: AT-HB-0010, AT-HB-0012, AT-HB-005, AT-HB-0020

▲ Referee kit

Material: PVC leather/ paper board
Specification: 210*130*30mm
Accessories: Red card, yellow card, coin, ball pen, whistle
Model: AT-HP-0001

FAQs about AirGoal

Q1: Will a set-up AirGoal fall down or swing because of heavy wind?

A: No. AirGoal has been used in thousands of games, not a case of falling down has been recorded. We have three solutions for AirGoal's extra stability: counterweight sand bag, counterweight water bag and ground anchor.

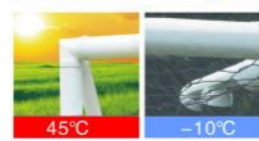

Q2: What's the most suitable operation environment of AirGoal?

A: Youth & amateur training & official game. Adult professional training or family entertainment.

Q3: Can AirGoal be used in official youth soccer games, not just youth training?

A: Of course yes. AirGoal has been designated goal for Youth Soccer Development Program of China Football Association since 2012. In thousands of official youth soccer tournaments, AirGoal acted as official goal. Famous clubs in China including Guangzhou Evergrande, Guizhou Renhe, etc have purchased AirGoal for their youth teams' dairy training. All the above has proved AirGoal's profession for youth soccer training and official games.

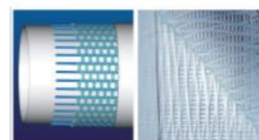

Q4: Can AirGoal be used in extreme high or low temperature?

A: AirGoal is made of thermoplastic polymer and high-tenacity yarn in a three layer structure. It can be used in temperature range from -10~-10°C~45°C. When temperature is out of the range, we suggest not use AirGoal. Just pack it up in bag and then reuse it when temperature returns.

Q5: Will AirGoal be damaged by knife or needle?

A: Nothing will be intact if users damage it by knife or needle on purpose. thus we need to take care AirGoal when using. Even though hose of AirGoal is damaged, we have solution, that is: Repair kits, which can be used by every user easily to repair damaged hose of AirGoal to avoid any leakage. No glue is needed in this repair process and it is very time-saving. Instruction of repair kits is showed on AirGoal homepage and also attached in every repair kits' package.

Q6: How long can AirGoal sustain after inflation?

A: The standard sustainable time for every AirGoal is 7 days (a week) after inflation, which can satisfy most of coaches' training requirement. If you feel air in AirGoal is not full enough, you can fuel air in AirGoal by pumping it for one or two more times.

Q7: What we should pay attention to while using AirGoal?

A: Never drag AirGoal when it is deflated cause in this situation, the hose of AirGoal would be worn out if any part of hose touches the ground. When you want to move AirGoal, pls inflate it and keep it above the ground. For large-size AirGoal's mobility, pls ask your friends to help if you feel it too heavy .

Q8: Is the rebound of AirGoal ok?

A: Since safety and portability is two main unique selling points of AirGoal, AirGoal's rebound is not exactly the same as steel goal. However its rebound can be 70~80% of that of the steel goal, which can ensure its usage in official games for youth.

Q9: Why AirGoal is more expensive than traditional steel goal?

A: First, AirGoal's hose is made of special thermoplastic polymer with high tenacity yarn in a three layer structure. The cost of the material is higher than normal steel. Second, the cost of producing our patented joint connector and connecting connectors with hose are higher than just connecting steel.

Even AirGoal's price is higher, we believe that safety and portability of AirGoal are not Substitutes for those who requires safe and portable sports experience.

Q10: Any warranty provided on AirGoal?

A: Yes. Firstly, for every Pro-series AirGoal, we provide a set of repair kit and back-up valve for free. Users can fix 95% faulty of AirGoal with these tools by themselves easily.

Second, we provide one-year warranty for each AirGoal product. Users can send back AirGoal if they not fix it themselves, we will then provide fix/replacement service. For any questions relate to product maintenance or repair, users/clients could get fast response by contact us on our International Wechat service center.

Q11: How long is the use life of AirGoal?

A: Under normal use, the use life of AirGoal is 3~5 years. If users pack up AirGoal after use every time, AirGoal's use life could be even longer.
